

Agenda for Computer Engineering IAB Meeting of November 12, 2004.

8 – 8:30 Continental Breakfast (foyer of Forbes Center)

8:30 – 9 Updates on Poly
Engineering Buildings Progress [Dan Walsh]
Wow activities
Governance changes

9 – 9:30 Innovation Quest [Mike Cirovic]
(Innovation Quest is a new activity dedicated to providing support for undergraduates who have ideas for new products or processes.)

9:30 – 10:15 Tours [Hugh Smith, Lew Hitchner, Byron Smith]
Networking lab
Remodeled Computer Science labs

Coffee break in foyer of Forbes Center

10:30 – 11:15 DARPA Project [Art MacCarley]
Poly faculty and students are organizing to participate in this exciting autonomous vehicle contest.

11:15 – 12 Sustainability [Jim Harris]
(Poly is becoming involved in efforts to promote interest in sustainability issues and considerations of curriculum changes to promote knowledge and involvement by faculty and students. Jim will provide information and lead the group in discussion.)

Lunch in the foyer of Forbes Center

1 – 2 The Undergraduate Computer Engineering Curriculum in 2010
(We'd like to get the thoughts of the IAB members [and faculty] on the curriculum for the near future.) [Al Liddicoat]

2 – 3:30 Senior Projects [Taylor Nohara ; Vivian Wang; Blong Yang & Kenneth Merthe]
(I'd like to begin the development of a form and format for future evaluation of projects. Members are invited to send us anything they recommend; but we will be ready with samples of our own as well.)

Coffee break

3:45 – 4 Discussion of presentation review form and future review of senior projects.

4 – 4:30 Discussion of staggering the terms, adding new members, spring mtg. etc.
(We are recommending Friday, May 21, 2005) [Rina Raman]
